

Impactful Leadership Teams

POWERED BY  THE GC INDEX®

hello@melo.co.uk

0113 4656 111

What energises your leadership team?

- Most companies assign responsibilities based on role, skills and experience, but not what gives people energy.
- With the GC Index, we'll help your leadership team understand where each member gets their energy, any gaps you have as a team, and what to do about them. Leadership teams make the best impact when every team member is playing to their strengths.
- We give your leadership team the language and framework to unlock the potential of every individual, directly impacting your bottom line.

What to expect

INDIVIDUAL GC INDEX PROFILE

Every team member will get the opportunity to complete their own GC Index profile and have a 1-hour review with one of our GCologists to discuss the results.

PLANNING SESSION

We'll hold a planning session with the business leader to run through the team's collective GC Index profile and build in business goals to the workshop.

TEAM REVIEW WORKSHOP

We'll run a 3-hour workshop with your team explaining how to use the team's, and their own, GC Index profiles to work more effectively together.

FOLLOW UP

We'll arrange a follow up call 1 month after the workshop to talk through your progress to date, as well as any issues you've encountered and how to resolve them.
